

# Education for the Future

## Table of Contents

### Foreword

#### **1. Too much stress in schools and why we speak of the Finland miracle**

- 1.1 Good news from developmental research
- 1.2 The expectations of society concerning schools
- 1.3 What is different in Finland?
- 1.4 How are the Steiner Waldorf schools managing?
- 1.5 On safety and well-being in child development

#### **2. Age-appropriate instruction vs. performance dictates**

- 2.1 How do we stimulate physical and soul development?
- 2.2 Humanising – a ‘must’ for the 21st century - but how?
- 2.3 Why school can make us ill
- 2.4 Without courage and initiative we cannot proceed – but how do we learn that?
- 2.5 ‘Everything in its own time’ – why do we lack patience?
- 2.6 What Waldorf elements do we find in state schools?
- 2.7 What about scientific evidence?

#### **3. Health for body, soul and spirit – what does this mean in the daily school practice?**

- 3.1 Salutogenesis or the central role of the feeling life in education
  - 3.1.1 To learn out of love – but how?
  - 3.1.2 Who educates whom in self-education?
  - 3.1.3 Anthroposophy – a cultural asset
  - 3.1.4 Salutogenesis and the feeling of coherence in the Waldorf context
- 3.2 Soul health – and social competence
- 3.3 Physical health – ‘to be on top of the world’: is it possible without drugs?
- 3.4 Spiritual health – how can we teach free of ideology?
- 3.5 Social health – how do we succeed in squaring the circle?
- 3.6 The qualities of a health promoting educational attitude

#### **4. The picture of the human being and its significance for a health-promoting education**

- 4.1 Self-knowledge – a life-long challenge
- 4.2 Paracelsus and his medical picture of the human being

- 4.3 J. Scotus Eriugena and his theological-philosophical picture of the human being
- 4.4 The anthroposophic image of the human being
- 4.5 Understanding in the context of thinking and observing
  - 4.5.1 The activity of the human organisations in early embryological development
  - 4.5.2 'Quinta essentia'
    - 4.5.2.1 Thoughts, feelings, and intentions are real entities
    - 4.5.2.2 The psychosomatic paradigm
    - 4.5.2.3 Soul versus Spirit
    - 4.5.2.4 Belief or Knowledge?  
Concerning the possibilities of external and internal evidence
    - 4.5.2.5 Evidence by comparative observation
    - 4.5.2.6 The activity of the human members and artistic creation

## **5. The five salutogenic principles of Waldorf education**

- 5.1 Shaping the environment and caring for the senses during lessons
  - 5.1.1 Every organ shapes itself according to its function
  - 5.1.2 The 12 sensory modalities
  - 5.1.3 Sense activity and brain development
  - 5.1.4 Potential support or damage to sensory development
  - 5.1.5 Caring for the senses in teaching
  - 5.1.6 Caring for the senses in self development
  - 5.1.7 From self-experience via the senses to spiritual self-experience
  - 5.1.8 The question of reincarnation and of the meaning of the sense world
- 5.2 Caring for the biorhythms to support self-regulation
  - 5.2.1 Questions concerning the time table
  - 5.2.2 The biological clock and the central regulation of the rhythmic processes
    - 5.2.2.1 Caring for the daily rhythm
    - 5.2.2.2 The weekly rhythm
    - 5.2.2.3 The monthly rhythm
    - 5.2.2.4 The yearly rhythm
- 5.3 Learning from mistakes – a path to authenticity
  - 5.3.1 Two examples
  - 5.3.2 What is (developmentally) appropriate discipline?
- 5.4 Personal development through initiatives and self-actualisation
  - 5.4.1 'I can do it myself'
  - 5.4.2 Who am I - really?
  - 5.4.3 From provisional to true self-awareness
- 5.5 Having a sense of the contemporary world --  
what is my stance about the global development of humanity?

## **6. The pedagogical law -- a foundation for understanding human destiny**

## **7. Education for health in the second half of life**

### 7.1 A question of insight

7.2.1 Pre-school and the first years of school up to age 9

7.2.2 School years up to age 15

7.2.3 Upper school and up to the age of 21

## **8. Opportunities and risks for the 'deficient human'**

8.1 Why is human development so vulnerable?

8.2 The ancient myths of the fall of man and the theft of fire

8.3 Free choice and self-determination

8.4 The search for truth and community building

## **9. The yearly milestones of development and their resonance in the Waldorf curriculum**

9.1 The first year of life: alertness and physical control

9.2 The second year of life: listening and language acquisition

9.3 The third year of life: self-awareness in thinking – the I-experience

9.4 Perspectives from the anthroposophic knowledge of the human being for the first 3 years of life

9.5 The fourth year of life: rhythm and the joy of repetition

9.6 The fifth year of life: imagination – my thinking determines how things will be

9.7 The sixth year of life: discovering objectivity

9.8 Perspectives from the anthroposophic knowledge of the human being for ages 4 to 7

9.9 The seventh year of life: abstract thinking and school readiness

9.10 The eighth year of life: it is fun to learn by heart

9.11 The ninth year of life: a feeling of loneliness, 'meta-consciousness' and 'meta-memory'

9.12 Perspectives from the anthroposophic knowledge of the human being for ages 8 to 10

9.13 The tenth year of life: a new look into the world – a love of animals and nature, technology, hobbies, friends

9.14 The eleventh year of life: a new relationship to speech

9.15 The twelfth year of life: the completion of childhood and the question – what now?

9.16 The thirteenth year of life: crossing the line and the experience of anger and powerlessness

9.17 Perspectives from the anthroposophic knowledge of the human being for ages 11 to 14

9.18 The fourteenth year of life: the power of longing and the polarity of feelings

9.19 The fifteenth year of life: who is responsible for me?

- Don't tell me what to do! Personal conscience awakens
- 9.20 The sixteenth year of life: finding your own way – self-responsibility and awareness of duty
  - 9.21 The seventeenth year of life: learning to live with the suffering of the world
  - 9.22 The eighteenth year of life: courage for the future
  - 9.23 The nineteenth year of life: doing what is needed
  - 9.24 Perspectives from the anthroposophic knowledge of the human being for ages 15 to 19.
  - 9.25 The twentieth year of life: gaining experience
  - 9.26 The twenty-first year of life: the difficulty of making one's own decisions
  - 9.27 Perspectives from the anthroposophic knowledge of the human being for ages 19 to 21

## **10. Sexuality and Identity**

- 10.1 Transgender and asexuality
- 10.2 Homosexuality
- 10.3 The ego and the partner
- 10.4 Concerning pornography
- 10.5 Sexual perversions
- 10.6 Destiny questions
- 10.7 Sex education in school
- 10.8 Perspectives from the anthroposophic knowledge of the human being about the differences between men and women

## **11. Eurythmy and why it is so important**

## **12. On the curriculum for non-denominational religion lessons**

## **13. Teaching technology and learning with digital devices**

- 13.1 The pedagogical approach to media use
- 13.2 The developmentally oriented media curriculum of the Waldorf school
  - 13.2.1 Indirect and direct media education
  - 13.2.2 Media concepts
  - 13.2.3 Media readiness versus media competence
  - 13.2.4 The special field of media education
  - 13.2.5 Media in the school: production before consumption
- 13.3 Technological development and current burning questions
  - 13.3.1 The relationship of man and machine
  - 13.3.2 How to use the opportunity of new freedom
  - 13.3.3 Interest in the world – and people do not develop by themselves
  - 13.3.4 Curriculum recommendations at a glance

## **14. Teacher health**

- 14.1 The danger of burn-out in the helping professions
- 14.2 The four & three teacher virtues
- 14.3 Become a comrade of Nature
- 14.4 How can the work in the teaching collegium become a source of strength?
- 14.5 The seven conditions for healthy development
- 14.6 Health engendering lesson preparation
- 14.7 Connection to the true “I”

## **15. The task of the school doctor along with school psychologists, social workers, school nurses, carers and counsellors**
